PROFESSIONAL SUMMARY

Early-career product and business generalist who enjoys turning ambiguous problems into working solutions. Built an AI-powered roommate compatibility platform from scratch by combining user research, analytics, and machine learning. Comfortable working across product, operations, market research, and strategy in fast-paced startup environments.

VENTURE & PRODUCT EXPERIENCE

AI-Powered Roommate Compatibility Platform

2026 - PRESENT

Independent Product Initiative

github.com/ginny212/Gayatri-Projects/tree/main/Roommate-Matching-System

- Led user research, ML model development (BERT + K-Means), and deployment for an AI roommate matching platform.
- Optimized a hybrid recommendation engine combining user lifestyle traits, behavioral patterns, and personality compatibility signals.

Cityfurnish Homepage Re-design

2026

Independent Product Manager Initiative

Figma Design

- Redesigned the core homepage in Figma to optimize user navigation and streamline the furniture rental booking funnel.
- Conducted heuristic evaluations to restructure category categorization, search functionality, and localized city-based filtering.

PROFESSIONAL EXPERIENCE

Scale100x.ai

JUN 2026 - PRESENT

Expansion Strategist

- Leading strategic expansion initiatives and growth operations for the AI-powered scaling platform.

Inddhan | Remote

JAN 2025 - MAY 2025

Data Analytics Intern

- Analyzed demographics and behavior to identify key customer segments and support engagement strategies.
- Created models evaluating alternative repayment structures to optimize planning outcomes.

HRAnexi

MAY 2024 - JUL 2024

Market Research Intern

- Conducted competitive intelligence research across industries to evaluate positioning and pricing.
- Automated reporting workflows using advanced Excel, reducing effort and improving accuracy.

SalesEra | Remote

JAN 2024 - MAY 2024

Market Research Intern

- Automated market research and B2B lead generation workflows using Python.

ADDITIONAL PROJECTS

Operational Data Quality Automation (Excel)

- Built automated data validation and ingestion workflows in Excel, enhancing reporting quality.
- Optimized interactive dashboards to monitor operational KPIs and support business performance tracking.

EDUCATION

HSNC UNIVERSITY, MUMBAI

2022 - 2025

Bachelor of Science (Data Science)

7.7/10 CGPA
